

To whom this may concern,  
K-LOVE provides the listening community with encouraging words and positive music that we as a family can listen to and are encouraged by. I am asking that you do not allow LPFM to replace this station because of its positive impact on our communities, especially our children. If K-LOVE were to be displaced by an LPFM broadcaster then our communities would suffer as there are not many radio stations that are fit for the whole family. K-LOVE provides a great service that I believe is in the public interest because it helps strengthen our beliefs, morals and values which it what strengthens and binds our communities together. I thank you for your time and consideration of my request.  
Jeff Chapin
